THE SHOOTING AT ALBANY. by so cool a butchery as that of Mr. Hiscock cess. at Albany. A purpose of revenge entertained mollified, and the horror of being a murderer of logs. deters from the commission of the deel. But taking another course, appears to have been few months. aroused by the sight of the invader of his holiest canctuary to a condition of ungovernable passion. The case, in our memory, which most resembles this is that of Mr., now General, Sickles, who shot the seducer of his wife in Washington some years since, with similar cocluces and deliberation.

According to the statement of Cole, Hiscock was a villain, and his crime was such as could bardly be reached and punished as it deserved by the ordinary processes of law. If the killing of a man by another is ever justifiable, such n crime as his effords such an instance; and it is difficult to wholly condemn the man who alumnits the deed under such provocation. You, there is a limit beyond which human resentment before human life is sacrificed,

assumes to inflict its extremo ponalty, however innocent before, becomes by that act a crimical, and his crime is murder. Juries may be influnoter of the net; he must bear about till death the self-conviction of murder, and so must be by regarded by his fellow men,-a terrible

#### General Sheridan.

This brave and faithful officer is meeting fre quent head thans in the prosecution of his du ties as military commander of Louisiana. Rebel influence appear to be constantly at work against him and to keep agencies at Washington or elsewhere to hinder and circumvent him in his plans by operating on the officials at the Capi al.

Gen, Sheridan's temperament is such that he caund do things by balves, and his energy amounts almost to impetuosity, which is uneadurable by the slow men who know only the processes of "red tape." This is equally irkgome to bim. Hence it is hardly to be expeated that he will take charge of such a department as has been assigned him and bring order out of the confusion created by such men ng Wells, Herron and Munroe, without doing the wholesale liquor business in Banover St., some things which more cautious and deliberative men would avoid.

The patriotism and fidelity to his trust of Phil. Sheridan cannot be questioned by any who have watched his career since the war began. He has deserved and won, to a degree oxedied by very few, the admiration of the loyal country, and, however his acts may be regarded at Washington, he is popularly be-lieved to be "the right man in the right place," the First National Bank there. It appears that —just the man to govern Louisians, if Ben. Gen. Benereyard had overdrawn \$72,000, which -just the man to govern Louisiana, it Ben. Butler cannot be had for the post,

Prospects for Business.

The railroad connection between Omaha and the Rast is now complete, and the carnings of the Union Pacific on the sections affectly finished for the first two weeks in May were \$113,000. Thus sectional carnings as the road progresses will much more than pay the interest on the Company's bond, and the through beclines over the only time of railroad between the Atlantic and Pacific must, be immense.

Value and Security of the Bonds.

The Computy respectfully submit, that the above statement of facts fully domonstrates the accurity of their Bonds, and as additional proof they would suggest that the bonds now offered are less than ten mittion dollars on 517 miles of road, on which over twenty milition dollars have obtainly been expected,—on 330 miles of this read the cars are now running, and the remaining 157 miles are nearly completed. MILTON GALE, ESQ., Boston. I hereby certify that I was touchy affected with holis for two years, developing themselves upon my limbs and other parts of my hody. The sufferings which I end ared from them are indiscribable. Suffice it to say, that I faithfully tried exversal of the most popular humer remedles, but without removing the affliction. At length, by the carnest riquest of an intimate friend, I was induced to try Dr. J. W. Dr. Poland,—I received your letter inquiring set to the effects of your medicine on seastchness. 12-m happy to say that I think it is "the medicine" for that dreaded sickness, 1 trick various prescriptions, test found more that settled the stomach and cleared the head like the Humer Dector. I felt as though I could hardly wait to get ashore, to entreat you to introduce it into ship chandlery stores, that it may find its way to these who suffer upon the mixing drep from sea sickness. If captains who take their families with them, or carry passengers, should try it for once, they would never be willing to voyage without it.

I have used it in my family since its introduction to
the public; for billions habits, headache, and humosabout my children, and have always found it a sure-
